

# Vertical Metallic Monoblock Pump (for Clean Liquids from Tanks & Sumps)

## TYPE : VM-1130

### Casing & Impeller :

- Cast Iron / SS 304 / SS 316 / Bronze

### Shaft & Plate :

- SS 410 / SS 304 / SS 316 Shaft / Mild Steel /  
SS Mounting Plate

### Elastomers :

- NBR / EPDM / FKM

### Operating Limits :

**Size :** Column length on request

**Speed :** 1450 or 2900 rpm (50 Hz)

**Pressure :** Flow and head on request

**Temperature :** Up to +100 °C (+212 °F)

### Application :

- Effluent Treatment Plants (Clean-Water Transfer)
- Perfumery & Fragrance Processing
- Electroplating Auxiliary Circulation
- Utility, Rinse & Process Support Water
- Industrial Tanks, Reservoirs & Sump Transfer
